 L2 Length _____

INSTRUCTIONS
 (1) Make copies of this page, distribute them to anyone responsible for design, welding, engineering, etc. and follow the instructions below.
 (2) On the table to the left CHOOSE the applicable information.
 (3) On the drawing above fill in the length of tangent desired for L1 and L2.
 (4) Fill in the quantity, date, company name, contact name, phone number and click the submit by email button

**We can also provide combination weldments using various fittings and/or flanges.
 Ask us about any fabrication needs you might have.**
